

Biodrier Business 2

This Dryer Means Business!

The Biodrier Business 2 creates a dual jet airflow that will dry your hands in 10 seconds or less. It also adopts CPU technology with a wide LED display. A concealed switch allows you set the unit at two heat levels 1400 watts (heater on) and 700 watts (heater off) and is fitted with Antibacterial filter and Air Freshener as standard.

High Speed Brush-Less Motor

The Biodrier Business 2 is based on a simple yet powerful idea – using the heat from its own motor to provide the warm air used to dry your hands in under 10 seconds.

The brush-less motor saves energy as it consumes only 700 watts of power. This means it uses much less power than conventional warm air hand dryers, saving you money and reducing your carbon footprint.

Biodrier Gel Blocks For The Business 2

The exclusive gels for the Biodrier Business 2 are available in packs of 12, each gel will last for approximately one month. The gels are manufactured from natural sources and are chemical-free. The Biodrier gel blocks perform three functions in one:

Moisturise hands | Sanitize | Air freshen the washroom

Detects Hands With Accuracy

The Biodrier Business 2 uses three infrared sensors to detect hands, eliminating false or delayed hand detection, starting drying exactly when needed. Because no contact is needed to activate the unit bacteria transfer to the hands is greatly reduced.

Hygienic

Water that is blown off the hands has to go somewhere. The Biodrier Business 2 collects the water in a drip tray in the bottom of the unit, which keeps the unit and surrounding area clean and safe.

The Heart Of The Biodrier Business 2

By utilising a revolutionary new high speed brush-less motor, the life of the Biodrier Business 2 is almost infinite! Long-term this will save users money in consumption and future maintenance costs. The motor also saves energy as it consumes only 700 watts of power, which is a lot less than a conventional dryer.

Biodrier Business 2 Technical Specifications

Item Category	Performance
Operating voltage	220-240Vac, 50 Hz
Air speed	110 m/s, 200m ³ /h
Motor type	35000 rpm, ICP brushless DC
Heater element	700W thermal protected
Rating power	700W (heater off) 1400W (heater on)
Drying time	Under 10 seconds
Display	LED - Countdown
Circuit operation	Infrared automatic, self adjusting
Timing protection	30 seconds auto shut off
Drip proof	IP22
Isolation	Class I
Filter	Antibacterial filter
Air freshener	Organic ocean breeze fragrance
Net weight	8.5kg
Unit size	W 300 x H 680 x D 250mm
Finish	White/ Silver ABS
Decibel rating	78 dba @ 1 mtr
Approvals	CE, WEEE, ETL, GreenSpec

Colour Options

SILVER | BB702S

WHITE | BB702W
